

Risk Disclaimer

LEGAL ENTITY	COMPANY NO.	EFFECTIVE DATE	VERSION
INFINITY X INVESTMENTS LTD	16998775	31 MARCH 2026	V1.0

Important Notice: Please read this Risk Disclaimer carefully. By accessing METAVERSOPIA X you acknowledge that you have read, understood, and agree to the risks described herein.

1. No Financial or Investment Advice

Nothing on www.metaversopia.io, including information provided by the NOVA AI assistant, market data, ecosystem descriptions, or any other content, constitutes financial advice, investment advice, trading advice, legal advice, or any other form of professional advice.

Infinity X Investments Ltd is not authorised or regulated by the Financial Conduct Authority (FCA) or any other financial regulatory body to provide financial advice. All content is provided for informational and educational purposes only.

You should always seek independent professional advice from a qualified financial adviser, legal professional, or other relevant expert before making any financial or investment decisions.

2. Cryptocurrency and Digital Asset Risks

2.1 EXTREME VOLATILITY

Cryptocurrency and digital asset markets are highly volatile. The value of any digital asset can increase or decrease dramatically over short periods of time, including to zero. Past performance is not indicative of future results. You may lose some or all of any funds invested.

2.2 LIQUIDITY RISK

Digital asset markets may have limited liquidity. It may not always be possible to buy or sell a digital asset at a desired price or at all, particularly during periods of extreme market stress.

2.3 MARKET MANIPULATION

Cryptocurrency markets are less regulated than traditional financial markets and may be susceptible to manipulation, wash trading, spoofing, and other fraudulent practices.

2.4 NO DEPOSIT PROTECTION

Digital assets are not covered by the Financial Services Compensation Scheme (FSCS) or any equivalent government-backed compensation scheme. If you lose digital assets, there is no guarantee of recovery.

3. DeFi-Specific Risks

3.1 SMART CONTRACT RISK

Decentralised finance protocols rely on smart contracts — self-executing code deployed on blockchain networks. Smart contracts may contain bugs, vulnerabilities, or exploits that could result in the partial or total loss of funds, even if independently audited.

3.2 PROTOCOL RISK

DeFi protocols may be subject to governance attacks, economic exploits, flash loan attacks, oracle manipulation, or other vectors that could result in significant losses.

3.3 IMPERMANENT LOSS

Providing liquidity to DeFi protocols may result in impermanent loss — a reduction in the value of your deposited assets compared to simply holding them — due to price divergence between paired assets.

3.4 COUNTERPARTY RISK

Transactions on decentralised networks are generally irreversible. There is no central authority to reverse a transaction made in error or as a result of fraud.

4. Technology Risks

4.1 BLOCKCHAIN NETWORK RISK

Blockchain networks may experience congestion, downtime, hard forks, or consensus failures that could affect the usability or value of digital assets. Network upgrades may not be backwards compatible.

4.2 WALLET AND KEY MANAGEMENT RISK

Loss of private keys, seed phrases, or wallet access may result in the permanent and irrecoverable loss of digital assets. There is no customer service team that can restore access to a self-custodied wallet.

4.3 CYBERSECURITY RISK

Digital assets and DeFi platforms are frequent targets of hackers, phishing attacks, malware, and social engineering. No platform or system can guarantee complete protection from cyber threats.

5. Regulatory and Legal Risks

5.1 REGULATORY UNCERTAINTY

The regulatory environment for cryptocurrencies, digital assets, and DeFi is rapidly evolving and varies significantly across jurisdictions. Regulatory changes could affect the legality, availability, or value of digital assets and services.

5.2 TAX OBLIGATIONS

Transactions involving digital assets may give rise to tax obligations in your jurisdiction, including capital gains tax, income tax, or other levies. You are solely responsible for understanding and fulfilling your tax obligations. We do not provide tax advice.

5.3 JURISDICTIONAL RESTRICTIONS

METAVERSOPIA X may not be available to users in certain jurisdictions. It is your responsibility to ensure that your access to and use of the Platform is lawful in your jurisdiction.

6. Platform-Specific Risks

METAVERSOPIA X is currently in a pre-launch phase. The following risks apply specifically to use of this Platform:

- **Pre-Launch Status:** Features described on the Platform may not yet be implemented. There is no guarantee that described features will be launched on any particular timeline, or at all.
- **NOVA AI Limitations:** The NOVA AI assistant may provide inaccurate, outdated, or incomplete information. AI-generated responses should not be relied upon for financial, legal, or technical decisions.
- **Market Data Accuracy:** Market data is sourced from third-party providers (CoinGecko) and may be delayed, incomplete, or inaccurate. Do not rely on this data for trading decisions.
- **Early Access:** Access codes are provided for exploratory purposes only. Holding an access code confers no rights, ownership interest, or guarantee of future access.

7. Third-Party Content

References to third-party projects, protocols, tokens, or services on this Platform do not constitute endorsement, recommendation, or validation of those projects. You should independently research any third-party project before engaging with it.

8. Limitation of Liability

Infinity X Investments Ltd expressly disclaims all liability for any financial losses, damages, or other adverse outcomes arising from:

- Reliance on any content, data, or AI responses provided on this Platform.
- Investment or financial decisions made based on information found on this Platform.
- Any of the risks described in this Disclaimer materialising.

9. Acknowledgement

By accessing www.metaversopia.io, you acknowledge that:

- You have read and understood this Risk Disclaimer in full.
- You understand the risks associated with digital assets and DeFi.
- You are accessing the Platform at your own risk.
- You will not hold Infinity X Investments Ltd, its directors, employees, or agents liable for any losses arising from your use of the Platform or reliance on its content.
